

Know when you're low.

# Eliminate expensive after-hours calls and your customer's excuses with **Tank Q!**

Tank Q is a low-cost, effective monitor that simply flashes when tank levels go below 25%\*.

## Tank Q benefits:

- Will call/rush/emergency customers become standard, scheduled deliveries with no "run outs"
- Lowers operating costs while increasing your customer's satisfaction
- Flashes when battery levels are low

## Additional Information:

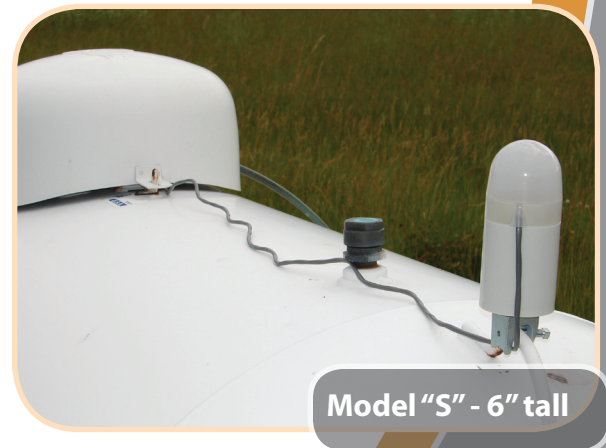

- Two-year warranty
- Easily installed on any remote-ready dial, securely attaches to the lifting lugs on the tank
- May be used on underground storage tanks (requires stake)
- Packaged in 24-lot carton
- Certified by MET Labs and meets UL standards

Model "N" - 12" tall

other colors available

Model "S" - 6" tall
